EDUCATION

Villanova University, Villanova, PA
Master of Science in Software Engineering Anticipated: May 2027

Bachelor of Science in Computer Science December 2025
Dean's List

Relevant Coursework:
Data Structures & Algorithms, Software Engineering (Agile Methodologies), Database Systems, Data Science Computer Systems, Applied Machine Learning, Platform-Based Computing, Analysis of Programming Languages

Technical Skills

Programming Languages: Python, Java, C, C++, JavaScript, SQL

Software & Data: Data analysis, ETL pipelines, data cleaning & validation, Agile development (Kanban boards, sprints, demos)

Frontend/Backend: React, React Native, HTML, CSS, PostgreSQL, Firestore

Tools & Platforms: Git/GitHub, Linux, AWS (basic), Jupyter Notebook

Machine Learning & Analytics: scikit-learn, TensorFlow, PyTorch

Projects

Workouts2.0 | React Native, TypeScript, PostgreSQL, Supabase, Prisma, Render

- Developed and deployed a full-stack workout tracking application with persistent database storage and a Progressive Web App (PWA) accessible on mobile devices.
- Implemented per-set weight and repetition tracking, historical performance displays, and suggested target weights based on previous best sets.
- Designed workout completion snapshots to preserve historical records independently of subsequent workout deletions and implemented device time-zone handling to ensure accurate workout-day assignments.
- Integrated password recovery using Brevo and orchestrated a six-agent AI development workflow to iteratively transform nonfunctional prototypes into deployable software through explicit task decomposition, file-level instructions, and debugging.

NFL Game Outcome Predictor | Python, Jupyter Notebook, Logistic Regression

- Designed, implemented, and tested a machine learning pipeline in Python to predict NFL game outcomes using 342k+ play-by-play records.
- Applied data analytics techniques: engineered matchup-level features, eliminated data leakage, evaluated models (66% accuracy, 0.73 AUC).
- Built dashboards and visualizations (ROC curves, confusion matrices) to present insights for data-driven decision-*making.*

Slices Puzzle Game | React, JavaScript, Firestore

- *Developed a responsive web-based puzzle game using React with timed challenges and a daily leaderboard.*
- *Implemented real-time data storage/retrieval with Firestore to support live score updates and persistent user data.*

- *Used Agile methodologies (Kanban boards, sprints, demos) to plan, implement, and review features with iterative feedback.*
- *Debugged gameplay issues and improved UI responsiveness to enhance user experience.*

Custom Pong Game | Python (Turtle) & HTML/JavaScript (Brython)

- *Designed a cross-platform Pong game playable in Python and the browser.*
- *Implemented game logic: physics, collision detection, scoring, and state management.*
- *Demonstrated problem-solving and debugging skills through iterative development.*

ATHLETICS

Villanova University Division 1 Football Team 2022-Present

- Division I student-athlete balancing full-time Computer Science coursework with 30+ hours/week of team commitments.
- Honors: Full Athletic Scholarship; multiple Academic Honor Rolls recognizing academic excellence and discipline.

EMPLOYMENT

Villanova University Information Technologies, Villanova, PA

Information Technology Student Technician *Summer 2026–Present*

- Configured and prepared Extron AV switchers by updating passwords, hostnames, DHCP/network settings, EDID, DTP power, and audio routing.
- Installed and tested AV equipment across campus, verifying input switching, audio, displays, cameras, and Zoom functionality.
- Respond to faculty technology service requests and troubleshoot classroom AV, display, audio, and connectivity issues.
- Assisted with IT hardware inventory, documenting device models, serial numbers, MAC addresses, and classroom assignments.

Paragon Marketing Corporation, Villanova, PA 2024-Present

Gatorade Team Leader

- Prepared and delivered Gatorade and water containers to sports camps across campus
- Set up hydration stations, including tables, tents, and coolers, for daily camp activities
- Maintained cleanliness, inventory, and proper sanitation of all equipment and supplies
- Coordinated with coaches and staff to ensure timely delivery and efficient setup
- Demonstrated reliability, teamwork, and strong communication in a fast-paced outdoor environment

Flag Football Referee, Williamstown, NJ 2021-Present

Referee

- Officiated youth flag football games for ages 5–17, ensuring safety and fair play
- Enforced rules, tracked scores and penalties, and managed game flow effectively
- Communicated clearly with players, coaches, and spectators to resolve disputes
- Maintained professionalism and leadership in fast-paced, competitive environments

EXTRACURRICULAR ACTIVITES AND VOLUNTEER EXPERIENCE

Cognitive Wellness Member, Villanova, PA 2024-Present **Bone**
Marrow Drive, Villanova, PA 2023-Present **Special**
Olympics Volunteer, Villanova, PA 2022-Present
