EDUCATION

Villanova University, Villanova, PA
Master of Science in Software Engineering — Anticipated: May 2027
Bachelor of Science in Computer Science — December 2025
Dean's List

Technical Skills

- **Programming Languages:** Python, Java, C, C++, JavaScript, TypeScript, SQL
- **Frontend & Backend:** React, React Native, FastAPI, HTML, CSS, REST APIs
- **Databases & Cloud:** PostgreSQL, Supabase, Prisma, Firestore, AWS
- **AI & Machine Learning:** RAG, OpenAI API, PyTorch, TensorFlow, scikit-learn, Logistic Regression
- **Developer Tools:** Git/GitHub, Linux, Jupyter Notebook, Expo, Render

Projects

Workouts2.0 | React Native, TypeScript, PostgreSQL, Supabase, Prisma, Render

- Developed and deployed a full-stack workout tracking application using React Native, TypeScript, PostgreSQL, and Supabase.
- Designed database models and backend services using Prisma to manage workout plans, exercise history, and persistent user data.
- Implemented progressive overload tracking, historical performance displays, and suggested target weights based on previous performance.
- Built workout completion snapshots and time-zone handling to maintain accurate historical records.
- Integrated password recovery using Brevo and orchestrated a six-agent AI development workflow to iteratively transform nonfunctional prototypes into deployable software through explicit task decomposition, file-level instructions, and debugging.

Tinge Studies | Python, FastAPI, React, OpenAI, RAG

- Developed an AI-powered study assistant using Python, FastAPI, React, and OpenAI API, allowing users to upload course materials and ask context-specific questions.
- Implemented a Retrieval-Augmented Generation (RAG) pipeline to retrieve relevant information from uploaded documents and ground LLM responses in source material.
- Integrated conversation history and contextual retrieval to maintain continuity across interactions while managing token usage and latency.
- Implemented AI-generated study questions using uploaded course materials to support personalized exam preparation.

NFL Game Outcome Predictor | Python, Jupyter Notebook, Logistic Regression

- Designed, implemented, and tested a machine learning pipeline in Python to predict NFL game outcomes using 342k+ play-by-play records.
- Applied data analytics techniques: engineered matchup-level features, eliminated data leakage, evaluated models (66% accuracy, 0.73 AUC).
- Built dashboards and visualizations (ROC curves, confusion matrices) to present insights for data-driven decision-*making*.
- *Used season-level team performance metrics to generate matchup predictions and compare model output against performance baselines.*

EMPLOYMENT

Villanova University Information Technologies, Villanova, PA

Information Technology Student Technician *Summer 2026–Present*

- Configured Extron AV switchers, including passwords, hostnames, DHCP/network settings, EDID, DTP power, and audio routing.
- Installed and tested classroom AV equipment, troubleshooting display, audio, camera, and Zoom connectivity issues.
- Diagnosed and resolved faculty technology support requests involving classroom hardware and network connectivity.
- Maintained IT hardware inventory, documenting device configurations, serial numbers, MAC addresses, and classroom assignments.

Paragon Marketing Corporation, Villanova, PA 2024-Present

Gatorade Team Leader

- Coordinated preparation and delivery of Gatorade and water supplies to sports camps across campus, ensuring timely distribution.
- Managed hydration station setup, equipment inventory, and sanitation while collaborating with coaches and staff in a fast-paced environment.

Flag Football Referee, Williamstown, NJ 2021-Present

Referee

- Officiated youth flag football games for ages 5–17, enforcing rules, maintaining player safety, and ensuring fair competition.
- Managed game flow tracked scores and penalties, and communicated with players, coaches, and spectators to resolve disputes professionally.

ATHLETICS

Villanova University Division 1 Football Team 2022-Present

- Division I student-athlete balancing full-time Computer Science coursework with 30+ hours/week of team commitments.
- Honors: Full Athletic Scholarship; multiple Academic Honor Rolls recognizing academic excellence and discipline.

EXTRACURRICULAR ACTIVITES AND VOLUNTEER EXPERIENCE

Cognitive Wellness Member, Villanova, PA 2024-2026
Bone Marrow Drive, Villanova, PA 2023-Present
Special Olympics Volunteer, Villanova, PA 2022-Present
